

[Niche Shelf]

Drawing reference for fixture installation

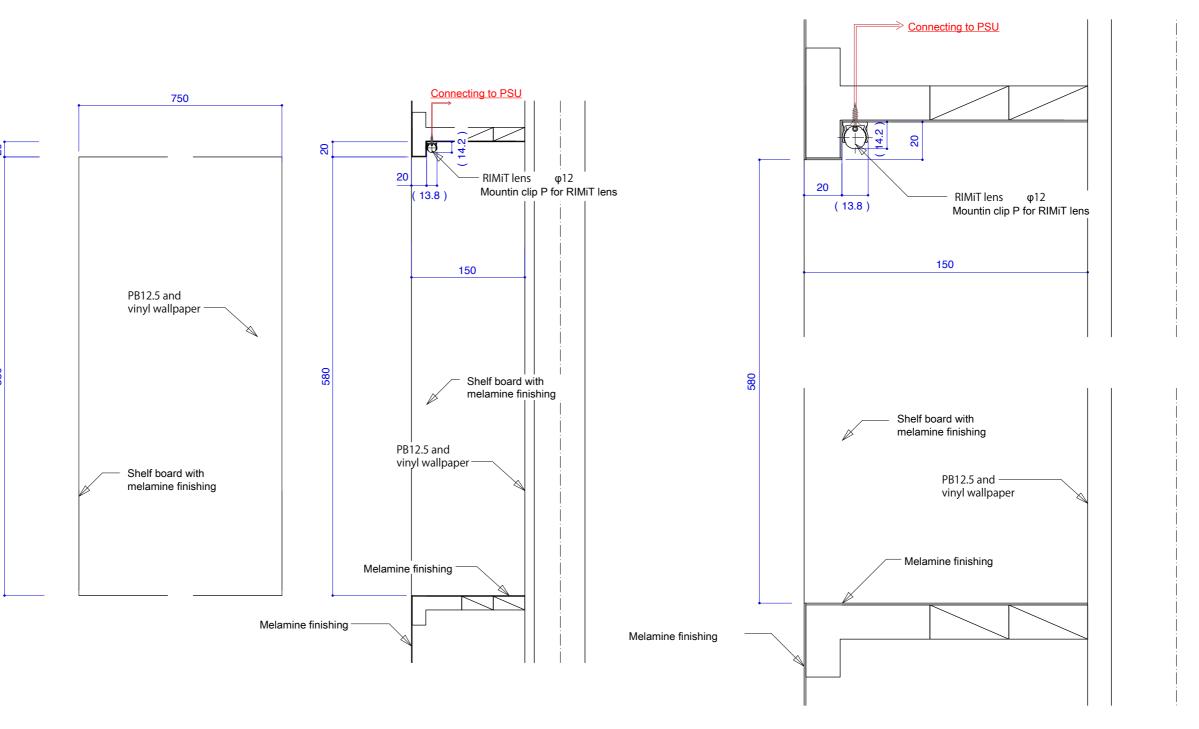

S=1/20, 1/2 (A3)

Benefits:

- · 12mm diameter dotless line lighting fixture with lens distribution
- · Lens specifications that distribute light with an approximate 40° angle, providing beautiful light gradation
- · Light distribution can be adjusted in 10° increments after installation with clips
- · Available in 60 sizes from 33 mm to 1508 mm, connecting spot is not easily noticeable

Side section detail drawing S=1:2

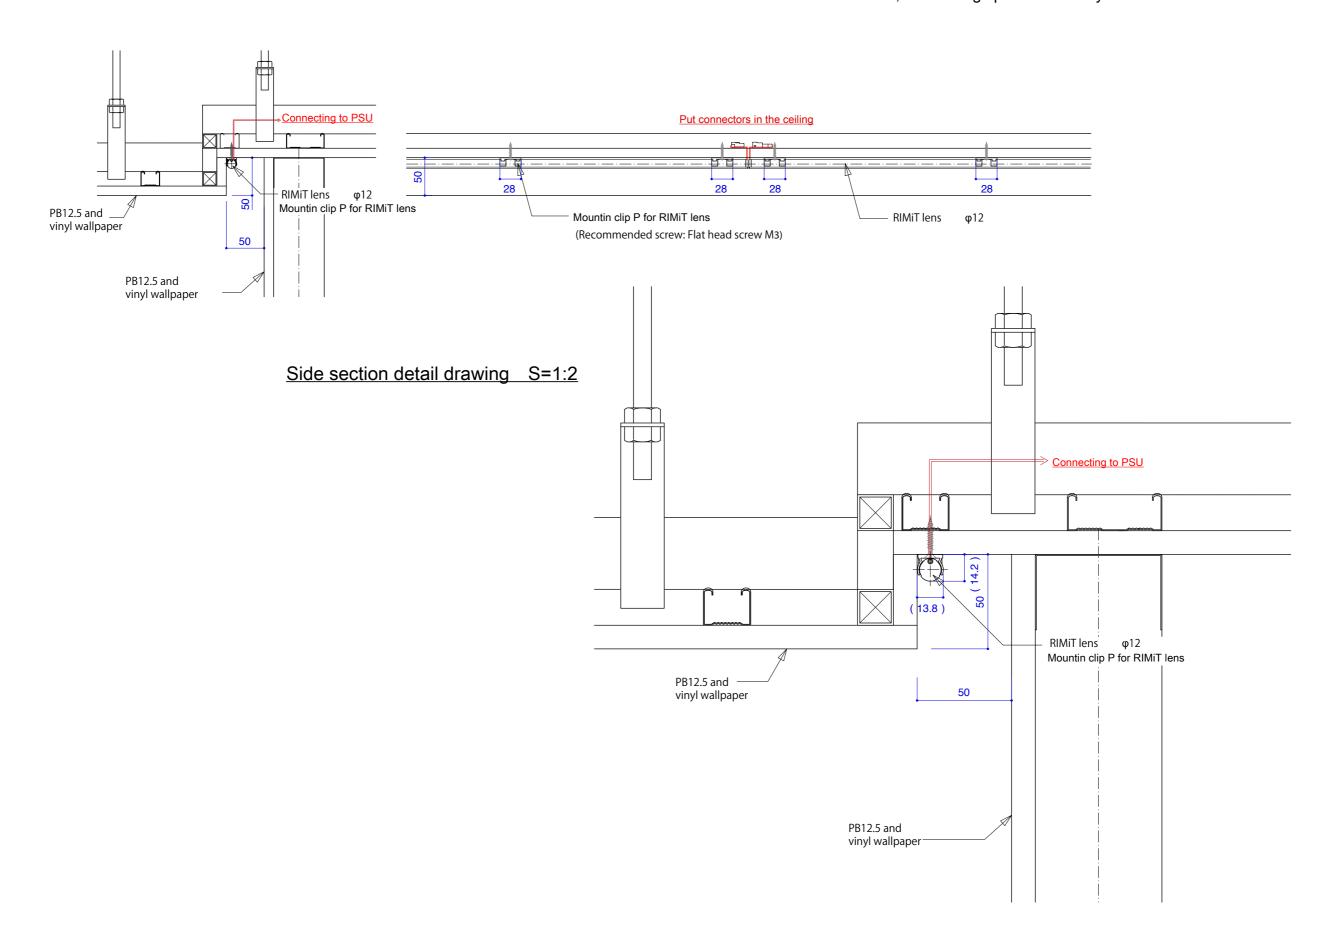

[Grazing]

Drawing reference for fixture installation

S=1/5, 1/2 (A3)

Benefits:

- · 12mm diameter dotless line lighting fixture with lens distribution
- · Lens specifications that distribute light with an approximate 40° angle, providing beautiful light gradation
- · Light distribution can be adjusted in 10° increments after installation with clips
- · Available in 60 sizes from 33 mm to 1508 mm, connecting spot is not easily noticeable

[Curtain Box]

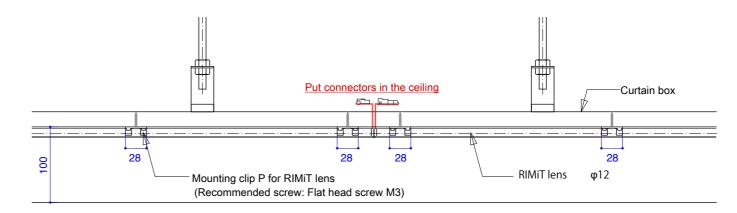

Drawing reference for fixture installation

S=1/5, 1/2 (A3)

· 12mm diameter dotless line lighting fixture with lens distribution

Benefits:

- · Lens specifications that distribute light with an approximate 40° angle, providing beautiful light gradation
- · The lift parts create space for wiring storage when connected
- · Available in 60 sizes from 33 mm to 1508 mm, connecting spot is not easily noticeable
